

Poštovani!

On behalf of the National Organizing Committee, I warmly welcome you to Croatia, the land of a thousand islands, to participate in the "11th International Conference on the Frontiers of Plasma Physics and Technology." For a country of our size, Croatia is remarkably diverse in terms of geography and culture. From the stunning Adriatic coastline and its many islands to the picturesque plains of Slavonia and the rugged mountains of the Dinaric Alps, our landscapes are as varied as they are beautiful.

Croatia's rich cultural heritage is a testament to centuries of history and the influences of numerous civilizations, from ancient Rome to the Austro-Hungarian Empire. Today, our traditions are woven together by a deep respect for guests, a sentiment captured in the Croatian saying, "Gost je svetinja," meaning "The guest is sacred." It is with this spirit of hospitality that we welcome you to join us and immerse yourself in Croatia's charm and the exciting discussions of this conference.

This time, we warmly welcome you to experience Croatia's rich and diverse lifestyle and to share your scientific endeavors in the stunning city of Dubrovnik. During the conference, you will be inspired by breathtaking views of the Adriatic Sea and the iconic city walls of Dubrovnik, right from the conference hall. The social part of the conference will allow you to immerse yourself in Dubrovnik's historic charm, often referred to as the "Pearl of the Adriatic," where centuries-old architecture, vibrant cultural activities, and lively streets create an open-air museum atmosphere.

We are honored to host you, ensuring that your stay is both comfortable and unforgettable. Get ready for engaging scientific discussions and to experience the warm hospitality that Croatia is known for.

We look forward to welcoming you to Dubrovnik. Dobrodošli!

Nikša Krstulović

Chair, National Organizing Committee, FPPT-11
